PRODUCT DESCRIPTION

You want every customer to walk away smiling with shiny, healthy hair. That's what makes your job enjoyable and keeps your customers coming back.

Olivia Garden's NanoThermic brush is the perfect helping hand. It speeds-up the drying process with larger holes in the barrel for increased flow. The hair and scalp are protected from heat, and well gripped with unique wavy bristles.

Give your customers shine like never before.

This hairbrush has two great innovations which increase the glossy appearance of hair. NanoThermic technology which has antibacterial properties and ion-charged bristles to keep cuticles and lengths healthy and radiant. Your job is made easier with handy little design details like a snag-free ring, retractable sectioning pick, easy-grip and lightweight hold.
